

# Hello I'm Emily Zhang

12 Tech Drive  
San Francisco, CA 94110  
(555) 246-1357  
emily.zhang@email.com

## Skills

- Advanced in React, TypeScript, Node.js, and Express
- Experience with REST APIs, MongoDB, Redis, Docker
- Strong ML background with scikit-learn, TensorFlow
- Familiar with MLOps tools and deployment pipelines
- Git, GitHub, Agile sprints, pair programming

## Experience

May 2025 - Present

AI Productivity Co. – Software Engineering Intern

- Developed features with React/TypeScript and Node.js
- Integrated ML task prediction models into core product
- Worked with Docker, Redis, and continuous deployment

June 2024 - Aug 2024

ML Research Assistant – Stanford HCI Lab

- Built prototype for smart scheduling using NLP in Python
- Conducted experiments comparing ML-based vs rule-based approaches

## Education

2022 - 2026

Stanford University – B.S. in Computer Science (AI Track)

Relevant Coursework: Deep Learning, NLP, Software Systems, Databases

## Awards

- Stanford CURIS Research Fellowship 2024
